*Outdoor storage tank*

### Quality Products

As one of the nation's leading plastic fabricating plants, APR's daily mission continues to be to provide more than our customers expect in design, quality and level of service. That's why we exclusively use the finest domestic and imported Coploymer Polypropylene materials in all our products. APR products are the highest-quality available because our designs are based on over 25 years of experience and cutting edge technology, proven to be of the highest formal standards in the business.
