

we've got you covered.

SECONDARY CONTAINMENT

APR Plastic Fabricating manufactures secondary containment systems for all industrial applications.

Secondary Containment Systems

APR secondary containment systems are manufactured using our high-impact resistant Copolymer Polypropylene material.

- Chemical storage and protection against leaks and spills
- Self-supporting or pit-lined construction methods available
- Fabricated to your exact specifications - any size, shape and capacity
- Convenient on-site installation where required
- Industry standard warranty or extended 5-10 year plans
- Accessories available for complete installation

Concrete pit (before)

Installation of pit liner

Lined pit with divider walls (after)

Quality Control

Protect your facility from leaks and spills with a secondary containment system from APR.

- Superior quality control process
- Rigid safety measures
- State-of-the-art equipment
- Certified and trained experts
